Grayson County Board of Supervisors
Regular Meeting
January 13, 2022

Members attending in person: Michael S. Hash, John S. Fant (by teleconference/zoom)
Kenneth R. Belton, R. Brantley Ivey, and Tracy A. Anderson

Staff attending in person: William L. Shepley, Mitchell L. Smith, Carl Caudill, II and Linda C. Osborne

IN RE: OPENING BUSINESS

Supervisor Hash, Chair, reminded everyone of the decorum for the boardroom. Supervisor Hash recommended a change to the agenda and noted that in looking over the policy and procedures, in the public comment section it would hinder the board from taking public comments if the Wednesday/Saturday Trash Collection is listed as an agenda item. Supervisor Hash noted that to not hinder the number of citizens that came to the meeting to speak, he is recommending that item be removed from tonight's agenda. Supervisor Anderson inquired if items 1-5 (meeting minutes of December 9, 2021 and January 4, 2022; bills/payroll; unanticipated revenue; school appropriation; and library appropriation) on the agenda will be handled separately or if they are as one and Supervisor Hash noted they are all under the consent agenda items; Supervisor Anderson stated he would like to withdraw approving the minutes of the last meeting (Jan. 4, 2022 Organizational Meeting Minutes) and would like to withdraw his certification/consent where the Board went into closed session pursuant to code 2.23711. Supervisor Belton made the motion to approve the agenda/consent agenda with removing the Wednesday/Saturday Trash Collection agenda items. Supervisor Hash also noted that Mr. Bill Sturgill will not be attending the meeting tonight for the Baywood Tech Phase I presentation – Mr. William Shepley will be giving that presentation. Supervisor Fant noted to clarify - remove the agenda item regarding trash collection but will leave the public comment portion where it is on the agenda and Supervisor Hash confirmed. Supervisor Hash noted that under some of the language under 6.4 Rules of Procedure it states: There may be an agenda item known as Public Comments to allow citizens time to address the Board regarding any matter that is not an agenda item and over which the Board has influence. This period should not be used to request specific Board action at that meeting. A Board member may comment after the public comments if they so wish. Supervisor Fant restated that it's recommended to hear the public comments, then make recommendations to staff as necessary. Supervisor Fant seconded the motion. Motion carried 5-0.

IN RE: PUBIC HEARING(S)

None

IN RE: PRESENTATIONS OR REQUESTS

Mr. Scott Wickham, Auditor of Robinson, Farmer, Cox Associates presented the audit for Grayson County year ending June 30, 2021, which is on file in the Grayson County Administrator's Office. Mr. Wickham noted the County received an unmodified opinion which means that's the best you can receive. Mr. Wickham did note that on pages 156/157 the COVID-19 rules changed, and the County reported more expenditures than revenues also noting that the State was learning as they went as well and that the County will need to make sure the final report for the County was corrected. Supervisor Fant inquired about the report being corrected and Mr. Wickham stated they have just finished the audit and hasn't had a chance to speak with Mrs. Gayheart regarding the report. Supervisor Fant noted the observation is on a new program showing we have more revenues than expenditures and it's something the County needs to keep an eye on to make sure all balances and Mr. Wickham confirmed – the State takes these reports and compiles them all together and then notifies the Federal Government so essentially the County told them we had spent more than we had actually spent. Mr. Wickham noted he just wants to out the issue and to make sure the County has a good review process in place. Supervisor Fant asked Administration to add this to the action items coming out of this meeting so an update can be given next month. Mr. Wickham noted that the revenues are holding steady with operating expenses increasing approximately 5.1% per year. It's recommended that counties have two (2) months in reserve and the County is in a good position. Mr. Wickham pointed out that a change has been made in lease agreements so if the County leases a building to rent it, you would now show that as a liability and recommends Administration go ahead and compile a list of leased/rented buildings so our records will be up-to-date as soon as possible. Mr. Wickham referenced page 23 which shows the recommendations noting that most of the time if you correct one, it will correct the others and hopefully will see some changes for the good in the next audit. Supervisor Anderson inquired about the liability in leasing/renting a building and Mr. Wickham noted that it's an asset. Supervisor Fant inquired about the fund balance noting that last year the County was at 18% and set a goal to get to 20% and Mr. Wickham noted we are at 21.1%. Supervisor Hash thanked staff for their hard work. Mr. Shepley thanked Mr. Wickham and his organization for all their help and partnership.

Mr. Phillip Adams, EMS Captain Rugby Fire/Rescue and Chair Emergency Services Commission and Mr. Brian Billings, Chief of Elk Creek Fire Department gave a presentation regarding Emergency Services Commission Request regarding issues and concerns for Emergency Services. Mr. Adams gave the following power point presentation regarding rescue and Mr. Billings on fire. Proposals for needed times were also presented.

DEFINITIONS

- **ALS** – Advance Life Support
- **BLS** – Basic Life Support
- **EVTC** – Emergency Vehicle Technician Certification
- **QRV** – Quick Response Vehicle
- **ATL - Aid To Localities** - The Virginia Fire Programs Fund is derived from one percent of fire-related insurance coverage. Approximately 75 percent of the total fund goes directly to counties, cities and incorporated towns within the Commonwealth
- **Four-for-Life** - 26% is allocated as the "Return to Locality" fund to provide local funding support Training of EMS personnel and The purchase of equipment and supplies for emergency medical and rescue services

Weekly Cost (60hr):	\$1,320	Life Pak 15:	\$33,218.10
Annually Cost (52wks) :	\$68,640	ALS Supplies	\$5,000
Total cost of 3 ALS personnel annually :	\$205,920	Cost for 1 QRV:	\$89,607.22

FUNDING FOR ALS STAFF: EFFECTS OF NOT FUNDING QRV'S

- ▶ Agencies closing doors
- ▶ Putting strain on other agencies by increasing their call volume, response time and increase in uncovered primary coverage area
- ▶ Loss of community based Emergency Services and individual agency identification
- ▶ Costing Grayson County tax payers more to provide the same services volunteers were

FUNDING OF APPARATUS: BENEFITS FUNDING OF APPARATUS ANNUALLY

- ▶ Relieving the financial strain on agencies
- ▶ Providing agencies with newer equipment
- ▶ Decrease in maintenance cost
- ▶ Supporting agencies and reducing the need for constant fundraising
- ▶ Allowing agencies to purchase other equipment
- ▶ Standardization apparatus setup for easier multiple-agency calls

FUNDING OF APPARATUS: ROTATION APPARATUS EXAMPLE

Agency - Fire	FY	Agency - Rescue	FY
Galax Fire	21-22	Mt. Rogers Rescue	21-22
Fries Fire	22-23	Rugby Rescue	22-23
Elk Creek Fire	23-24	Troutdale Rescue	23-24
Independence Fire	24-25	Elk Creek Rescue	24-25
Troutdale Fire	25-26	Independence Rescue	25-26
Rugby Fire	26-27	Baywood Rescue	26-27
Mt. Rogers Fire	27-28	Fries Rescue	27-28
		Galax-Grayson EMS	28-29

REASSESSING AGREEMENTS & CONTRACTS

- ▶ Galax – Grayson EMS Agreement
 - ◊ What does the Agreement state?
 - ◊ Is this pay per call based?
 - ◊ What formula do they use because County Funding changes year to year?
 - ◊ Billing for mutual aid
 - ◊ What areas in Grayson County benefit from this Agreement?

- ▶ Galax Fire Department Contract
 - ◊ What does Contract state?
 - ◊ Is the formula for County Funding included within the Contract?

RECRUITMENT & RETENTION:

- ▶ Competitive pay for agency with paid staff
- ▶ EMT-B classes within County
- ▶ Recertification classes within County for EMS providers
- ▶ Firefighter classes within the County
- ▶ Firefighter/EMT-B classes available in High School
- ▶ Agencies gaining older volunteers instead of younger volunteers
- ▶ Recruitment and Retention activities for Grayson County
- ▶ Better Social Media outreach

REPRESENTATION:

- ▶ Board of Supervisor attends Grayson County Emergency Services Commission meeting
- ▶ Quarterly Reports to Board of Supervisor from Commission

Emergency Services

Again what is the Purpose of
Grayson County Emergency Services?

When you call 911 someone will respond!

What are the effects of not acting on these issues?

- > Delayed Response
- > Loss of Life
- > Loss of Property
- > Loss of Volunteers
- > Loss of Agencies

Thanked the Board for their continued support. Mr. Adams noted that they would like a Board of Supervisor member to have a presence at their committee meetings. Mr. Billings asked the County to work with the Emergency Services Commission. Supervisor Belton inquired on why Galax Fire is on the list and Mr. Billings stated because the County has a contract with Galax and Galax/Grayson. Supervisor Anderson inquired about the advantage of meeting the NFPA (National Fire Protection Association) and Mr. Billings noted it's meetings the standards on fire equipment which makes sure we have safe/modernized gear/equipment, etc. – gear/equipment is aged out, so they are not wearing out of date protection gear or driving out of date vehicles. Supervisor Anderson inquired about the fair funding to Galax and Mr. Billings responded that he doesn't know where the contract is and we need to look at it to get it up to the 2022 standards. Supervisor Anderson inquired about suggestions in partnering with the school system and Mr. Billings noted that they would need to get with Mr. Hoyle, Grayson County Emergency Services Coordinator and see what would need to be done – Mr. Billings also noted that funds might be an issue. Supervisor Fant thanked both Mr. Adams and Mr. Billings for bringing this to the Board. Supervisor Fant inquired about the quick reaction force as it relates to the capabilities that already exists in our volunteer departments and talking about spending money on additional vehicles and paying someone to man those vehicles, what would the impact be on our volunteer service people and is there not capability that resides from an equipment standpoint that already exist that could potentially be the QRV if in fact the County funds the ALS. Mr. Adams responded there is always a risk when you put a QRV in place with a paid person in there but it's also a risk not to take – currently there is 1 department that is being heavily funded by the County for payroll and there are others that are close behind – there's risk either way – QRV can respond and meet on scene and would make a full crew. Supervisor Fant inquired about the apparatus plan or a procurement plan for that rotation through the different agencies and Mr. Billings responded yes, it would be 1 fire truck and 1

ambulance per year. Supervisor Fant asked the Commission to go back and look at a communication system, but there's a short-term response requirement related to communication – does the Commission have any thoughts or recommendations on how to try to solve the short-term problem? Mr. Billings noted that Mr. Gary Hash and Mr. Paul Hoyle have been working with TC 9-1-1 Coordinator Jolena Young on that – the agencies are getting to the point that something will have to be done on regarding communication and very soon. Mrs. Young noted that it comes to a point that something must be done. Supervisor Fant noted that if no one can reach help then it's hard to respond and everything that was presented tonight is necessary for the Board to figure out and especially now with budget coming up. Supervisor Fant asked that the short and long term communication problem be added so they can be addressed since we are starting into the budget season next month. Mr. Billings noted that it would be discussed in the next Commission meeting. Mr. Shepley thanked Mr. Adams and Mr. Billings along with the other emergency volunteers that attended the meeting. Mr. Shepley also inquired about the NFPA standards helping with grants and Mr. Billings explained that it's the AFG Grant which is separate. Supervisor Fant also requested that staff add the Emergency Services Commission western end communication issues to the agenda for next month's meeting.

Mr. Larry D. Bolt, Commissioner of Revenue for Grayson County, and noted that Pearson's Appraisal Service is in the process of completing the reassessment. Mr. Bolt noted that the reassessment should have been completed by December 31, 2021 and in the State Code an extension of ninety (90) days may be granted for "good cause" which includes (1) computer issues with real estate software (2) supply chain issues getting enough envelopes (3) didn't want to mail out the notice one (1) week before Christmas. Mr. Bolt also noted that asking for an extension is not uncommon – and extension was applied for in 2002, 2006, 2010 and 2016 and granted. Mr. Bolt noted that in order for this to be handled tonight, a motion would need to be made stating that the Grayson County Board of Supervisors directs the County Attorney to petition the courts to grant an extension of time as allowed by State Code. Supervisor Fant inquired about the date the extension would be in effect and Mr. Bolt noted December 31, 2021 and that would give three (3) months. Supervisor Fant inquired about the budget on setting the levy and from Mr. Bolt's perspective, is there any impact on this delay for the budget process? Mr. Bolt noted that the reassessment will be completed before the budget is too far in. Mr. Shepley stated that he thinks it will have an impact but will be relatively minor. Mr. Bolt noted that the extension request is listed under new business on the agenda tonight, but it can be voted on now if the Board chooses. Supervisor Anderson made the motion to approve the extension; duly seconded by Supervisor Ivey Motion carried 5-0.

Mr. Bolt then addressed the Board in place of Mr. Jeff Hayton of Pearson's Appraisal Service – due to illness, Mr. Hayton is unable to attend this meeting but will attend next month's meeting. Mr. Bolt then presented the following regarding notices and requesting an appeal:

Mailing of Notices, Dates of Appeals, Methods of Appeal, and Location of Appeals

- Notices will be mailed out by January 18th.
- First day of appeals will be on January 24th, last day as of now will be on February 18th.
- Last day to make an appointment by phone will be February 11th by 4:00 PM.
- We will review appeals by 4 different methods, a person-to-person meeting, the tax payer can write a letter asking for a review, by email (grcvsonco.reassess@rmail.com), or by requesting a phone call appointment if they are home bound or out of town.
- The in-person appeals will be held at the G.A.T.E. Center, 122 Davis Street Independence, Va.
- We encourage the person appealing their reassessment to bring any and all information that would be pertinent to their property appeal. Including recent appraisals, pictures or any other information they believe will assist us in making a decision about their appeal.

Percentages of Increase/ Median Home Prices

- 14.01% Average Increase on Taxable properties only.
- 12.9% Average Increase on Taxable/Non-Taxable overall.
- At least a 32.9% Average Increase on improvements.
- Land Values basically stayed the same except for some recreational camp ground sites and or Home Sites on or near the river. 2.6% average increase on land overall.
- Since the 2010 Reassessment up through the 2021 Tax Year an average increase of real estate values has only seen an average increase of 1.49%. (This includes the 2016 Reassessment and any new construction assessed by the Commissioner of Revenue since the 2016 Reassessment up until 2021.) The 2016 Reassessment alone was only a .0057% Increase from the 2010 Assessment.
- In 2018 the Median Sales price of a Double Wide Mobile home was \$65,660, in 2021 the Median Sales Price is \$125,771. An increase of 91.55% since 2018. See Attached Median Sales prices.
- In 2018 the Median Sales Price of a single-family dwelling was \$159,436, in 2021 the Median Sales Price is \$213,907. An increase of 34.16% since 2018. In 2021 the increase was 25.65% from the previous year. See Attached Median Sales prices.

2021

Total % Increase 2018-2021=			91.55%
Detached Homes			
2018	151	\$159,436	
2019	145	\$157,031	-1.51%
2020	188	\$170,240	8.41%
2021	169	\$213,907	25.65%
Total % Increase 2018-2021=			34.16%

Mr. Bolt noted that on page 4 under Taxable Total Value for 2022 where it shows 1,903,871,400 – this figure is before any appeals so this number could come down. Mr. Bolt mentioned land, levy, manufactured detached, etc. Mr. Shepley noted the impact this could have on the budget – after hearing Mr. Bolt explain, this could potentially impact how we approach the budget this year. Mr. Bolt noted that the final numbers should be in by the end of February 2022 and final adjustments would be made. Mr. Smith noted that according to the financial forecast, we are due for an increase. Mr. Bolt also noted that was based on old numbers and values and after the reassessment you will have new numbers to work with. Supervisor Anderson noted that it might be a good idea in the future to include an insert in with the notices regarding appeals and if you wish to appeal, here's the best way to do it.

Mrs. Jada Black, Director of Planning and Community Development, addressed the Board and gave the following 2020 Comp Plan (which is on file in the Planning and Community Development Office as well as the County website) Update:

As part of the ongoing work of the 2018 Grayson County Comprehensive Plan, the Grayson County Planning Commission is tasked yearly with completing and submitting a report to the Board of Supervisors as to how the County is meeting the goals and strategies listed within the Comprehensive Plan. This annual report is based on the calendar year 2020. To help facilitate this report, every County Department Head submitted pertinent data; once collected, the compiled information was reviewed by the Planning Commission and revised several times before a final version was complete and presented in the board packets for tonight's meeting. The Planning Commission encouraged Department Heads to elaborate on how their departments have met applicable goals and strategies. Even with an unparalleled year, County Department Heads and their staff still managed to meet those goals and strategies within the Comprehensive Plan. A continued effort by all to work towards these common goals and improve on each Departments' functions keeps us all moving forward to achieve our collective goals for Grayson County. Additionally, moving forward into 2022, per the requirements of section 15.2-2230 of the Code of Virginia, the Planning Commission shall review the Comprehensive Plan to determine whether it is advisable to amend the plan. Grayson County's Comprehensive Plan was revised and adopted in 2018, making 2022 our five-year review marker. Planning Commission members will begin working monthly to review the individual chapters in the coming months, determining appropriateness for revisions and readoption should it be required. Supervisor Fant thanked Mrs. Black and the Planning Commission members for getting this back on track and suggested in looking at the approach on the evaluation, there needs to be some timing associated with strategies – some will be open-ended and in the priority 1, 2, 3, would be helpful to revisit which would help with the implementation – a lot of things are being done right but are we doing the right things – would be helpful in adding to the reporting requirements. Supervisor Fant also noted that a couple of years ago the Federal Government passed the Opportunity Zones, from an Economic Development

standpoint allow to invest capital gains from one place into these opportunity zones and in looking at economic development along with the comprehensive plan. Supervisor Anderson inquired about bringing childcare to Grayson County and other hi-tech initiatives to keep our young adults in Grayson County. Mrs. Black noted that what Supervisor Anderson is referring to came from the School Board and they will be the ones to show whether they are completed or still in the planning stages. Supervisor Anderson inquired about Baywood Tech and Mrs. Black noted that came from Administration, not the School Board. Supervisor Anderson noted that the Baywood Tech is under an accomplishment (4-4) and that is from the Administration. Mr. Shepley noted the team has been meeting for the last couple of years and have invested some tax money to dedicate to it but it's not done. Supervisor Anderson noted it's in the planning stage, it's not an accomplishment.

Supervisor Hash, Chair, called for a brief recess and meeting will reconvene at 8:00 p.m.

Mr. Paul Hoyle, Grayson County Emergency Services Coordinator and Mr. Gary Hash presented the Regional Radio Interoperability Project Update and Mr. Hoyle noted that he can address the concerns regarding communication on the west end of the County. One of the things they have done is reassign some radios for Rugby to make sure that the ones responding from home have a little newer equipment – that has made some difference but it's not a solution to the problem. Last month the UHF antenna was replaced along with a cable – that has improved quality of communication somewhat. Purchasing 5 new mobile radios that we will set up at the base unit and will determine who needs those in their homes for the ones responding from home – these are much more powerful than the current ones. Working with a Smyth County landowner to see if it would be possible work off the Panther Creek tower on his property; we do have a verbal to work off that tower from the landowner and will need to work with Smyth County so some progress is being made. Mr. Hoyle then gave the following presentation:

Welcome and Background

- Much of the current VHF analog system was built out over 20 years ago. Some of the equipment was refreshed with a Homeland Security Grant in 2008/2009. However much of the core equipment is no longer available or supported by manufacturers.
- Agencies are beginning to independently pursue grants to improve reliability and coverage which threatens interoperability during multi-agency response.
- Radio Interoperability Task Force
 - Sheriff Kemp, Sheriff Vaughan, Chief Cooper, Charles Edwards, Gary Bergeron, James Cox, Gary Hash, Paul Hoyle, Brenda Marrah, Jolena Young
- Virginia Department of Emergency Management (VDEM) SHSP Grant used to fund Strategic Regional Radio Plan

Needs Assessment and Strategic Plan

- Aging land mobile radio equipment (LMR), with much of it at end of product lifecycle, puts Jurisdictions at risk for potential system failures that cannot be repaired
- Radio users experiencing insufficient radio coverage
- Some channel congestion due to an inadequate number of frequencies to accommodate paging and operational traffic
- The backhaul system, connecting most of the LMR sites to dispatch, lacks path redundancies to provide alternate routes for connectivity to key LMR sites in the event of a primary path failure
- No centralized Network Management System (NMS) to enable maintenance staff to remotely monitor and troubleshoot the LMR and microwave radio networks

Alternatives

- Alternative 1 – Upgrading the Carroll County, City of Galax, and Grayson County LMR systems to VHF P25 Conventional Digital Simulcast Systems
 - Alternative 1 is Federal Engineering's recommendation however, the procurement documents are being written to request vendors' provide a primary proposal for a P25 system and an optional alternate proposal for a DMR system.
- Alternative 2 – Upgrading the Carroll County, City of Galax, and Grayson County LMR systems to VHF DMR Conventional Digital Simulcast Systems

Weighing how to make short-term repairs in a way to minimize short-term, interim expenses

Benefits

Each alternative addresses existing system vulnerabilities by providing:

- New, current production LMR and microwave equipment for increased **reliability** and redundancy
- **Improved radio coverage** to meet stakeholder requirements
- Reduced manual intervention by radio user for site selection for increased operational efficiencies
- An IP-based backhaul system connecting all sites with increased capacity and **path redundancy**
- A network management system to **remotely monitor/troubleshoot** equipment and monitor site alarms

COSTS CAN BE LOWERED BY LOWERING BENEFITS
 DEPENDING ON SOLUTION USE OF EXISTING EQUIPMENT MAY REDUCE COSTS
 TASK FORCE IS USING THE RFP PROCESS TO GET FACTUAL DATA TO PROVIDE ALTERNATIVES
 DECISION WILL LIKELY IMPACT COMMUNICATIONS FOR 25-30 YEARS

Cost Estimates

P25	Grayson	Galax	Carroll	DMR	Grayson	Galax	Carroll

AGREEMENTS FROM JOINT SESSION

- Agree on importance of continued interoperability to public safety
- Commit to finding funding for a digital interoperable radio system
 - Grants (may only be available for P25)
 - ARP
 - Opioid Law Suit Settlement
 - Low interest loans
 - Vendor leasing
 - Legislation
 - Public Safety Tax
- Approve for the Task Force, under guidance of Twin County 911 Commission, to issue procurement documents early next year
- Acknowledge we can no longer solely rely on volunteer agencies to purchase and maintain communication equipment

PROGRESS AND NEXT STEPS

- SUBMITTED BRIC GRANT - \$12.7M/\$5.9M
 - Regional W/10 Years Maintenance)
 - Low Probability; Highly Competitive
 - January 26, 2022 is next milestone; FEMA funding last half of 2022
- ISSUED RFP
 - PROPOSALS DUE MARCH 31, 2022
- AFG GRANTS IN PROGRESS – Current Equipment Needs
- RSAF GRANTS IN PROGRESS – 50/50
- JOINT SESSION TO BE SCHEDULED FOR APRIL 2022

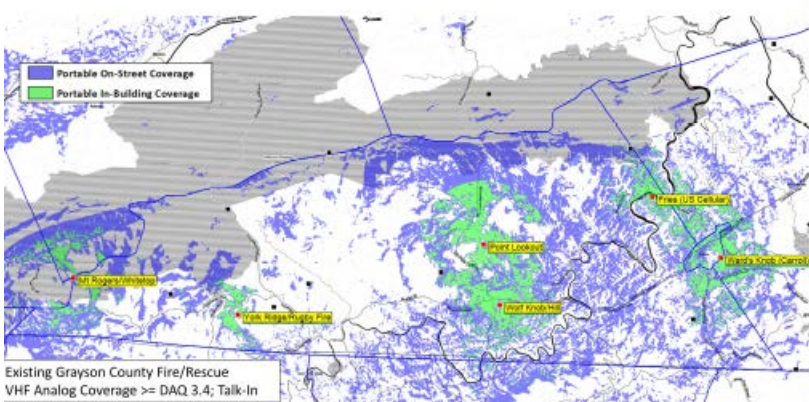

2020 BRIC AWARDS

States with the lowest application success for FY 2020 BRIC funding

State	BRIC Funds Requested	Selected for Further Review	Percent Selected
Texas	\$122,288,011	\$643,570	0.20%
Virginia	\$120,128,241	\$677,466	0.31%
Montana	\$59,383,371	\$242,743	0.41%
Florida	\$45,241,161	\$702,168	0.48%
Louisiana	\$19,339,602	\$634,950	0.53%
Hawaii	\$17,423,894	\$480,000	0.58%
Illinois	\$15,682,800	\$480,000	0.59%
Tennessee	\$57,455,487	\$340,000	0.59%
Connecticut	\$104,606,012	\$632,643	0.61%
Colorado	\$102,565,827	\$76,992	0.70%

Figure 10 - Alternative 1 – Potential VHF P25 Coverage from Grayson County Simulcast System – Talk-In

Mr. Hoyle noted this is an expensive system but will help in the future. Mr. Hash noted that the coverage percentage for Grayson County is 97% - mobile radios – 38% on the street for portable radios – 8% inside of any building in the county. With the P25 coverage goes up and with the DMR's it doesn't increase much. Mrs. Jolena Young, Director of TC 9-1-1, noted grants are being applied for and a grant application in and will know by the 26th whether we are still in the running for the grant – 12.7 M with a 5M match. Mr. Hash went through the cost estimates in the presentation. Mrs. Young noted there is a ten-year maintenance which includes repairs and replacement and purchaser of subscriber units. Mr. Hash noted that the goal is to improve communication – it's a challenge and it will be expensive. Supervisor Ivey inquired about the cost estimate and does it address radio problems with all agencies and Mr. Hash responded yes it does – fire, rescues, everyone. Mr. Hash noted that the vehicle repeater (is in the vehicle) would be great but won't solve the problem. Supervisor Fant inquired about the propagation maps that were used to come up with the estimates for coverage which takes into account the geography but what about the trees and foliage since this is a digital system; Mr. Hoyle replied that it does include the trees and foliage along with the seasons (spring/winter) and also includes wind. Maps are created electronically so the maps will need to be used as a conservative guide. Mrs. Young added that in the specs for the RFP that was sent out, the vendor has to test and prove that we are getting that level of coverage – they actually have to demonstrate that coverage that is required by the RFP. Supervisor Fant also noted that on the comparison slides it talked about towers have to be constructed to be able to place the equipment on and Mrs. Young noted that in their proposal they focused primarily on existing sites and there are two (2) proposed additional sites for Grayson. Once the vendors look, they may decide they may be less sites than engineering has proposed, or they could determine they need more sites. Until proposals are back which would be March 31, 2022, a lot can change when we look at the individual proposals. Supervisor Fant asked Mrs. Young to take back to the Commission/Board that there are three (3) things when this started: Broadband, Cellular and First Responders – we are addressing broadband; sounds like we have a pretty good plan on addressing First Responders but if we're going to have to build towers to support the First Responder communication and ask to consider adding cellular technology to that tower so we can expand that network at the

minimal cost which may mean we have to increase the construction strength of those towers. Mrs. Young noted she would check the document to see if it was included and if not, she's working on an addendum now and add it in if it's not already included.

Ms. Rebekah Roberts, G.A.T.E. Center Facility Manager, is listed to give an update on the G.A.T.E. Center but due to illness she is unable to attend. Staff will move her to the February agenda.

Mr. Shepley addressed the Board and noted that in looking at the Baywood School, there are three (3) things we are working towards establishing there: (1) Healthcare component (2) Hi-Tech Educational Center and (3) Childcare. The healthcare component is ready to roll – we are just waiting for that section of the building to get completed, occupied and to work out the contractual agreement. The Baywood Technical component is going through a planning phase and the childcare component is a hope that we can get a childcare aspect into that building – currently there is no particular person/group that has stepped forward yet to provide that service. Mr. Shepley is recommending looking at the Baywood School in three (3) phases with the first phase being the healthcare and we do have the funds for that – Mr. Shepley introduced Jim Werth of Tri-Area Community Health CEO who will be running the facility. Mr. Shepley has asked the contractors to attend the February meeting and present the Board with the phase 1 cost which would be the healthcare component. Rather than have the Board approve all three (3) phases, Mr. Shepley would like it done in separate phases. Mr. Werth addressed the Board and explained they are funded by the Federal Government and their facility will not turn anyone away from receiving care – payment is based on a scale – they accept anyone with insurance or without insurance and this clinic would be just like the Troutdale Clinic that opened last year. Supervisor Anderson inquired about the difference between this clinic and the Free Clinic in Galax and Mr. Werth noted that a Free Clinic is limited to who they can provide services for – most free clinics won't accept people with Medicare or people with insurance – so they would just take a certain number of people who don't have insurance; our clinic would accept the people with Medicare, Medicaid, private insurance, etc. Supervisor Anderson noted that he had stopped by the Free Clinic in Galax and spoke with them – they currently accept Medicaid because there is a backlog of facilities that are not accepting Medicaid. Supervisor Anderson inquired about having this service within six (6) miles of Baywood, he's not convinced on why the county should continue to pursue this investment. Mr. Shepley noted that there's not enough health care providers out there and it's a shame for us to pass up this not-for-profit opportunity plus the Federal Government shows this area as being underserved not to mention the pharmacy component that would save our citizens significantly. Mr. Werth noted that part of the arrangement would be a lease agreement so the amount that the County puts in from the grant funding that the County has received for healthcare so that money would be paid back to the County – the County is not giving them the money – it would be paid back over a period of time which is an investment in the County's future. After further discussion, Supervisor Belton made the motion to move to go to Phase 1 and work on

that section, having the contractor address the Board in February with the cost for Phase I. Supervisor Anderson inquired if this is just to approve the phase 1, we're not actually approving the monies since we don't have the cost breakdown and Mr. Shepley noted that we are waiting on the contractor to give us that figure when they address the Board in February – we are approving to let us break it down in phases and having the contractor address the costs in phases as well. Supervisor Hash asked if the motion needs to be restated and Supervisor Anderson stated yes since he's unclear if they are approving the contractor or approving to do phase 1 and Supervisor Fant stated yes as well; once restated, Supervisor Fant asked for clarification. Supervisor Hash stated this is for establishing a phase and proceed to accept the contractor and not the bid. Supervisor Anderson stated that he understood the motion to mean we agree to do it in phases and begin the process of phase 1 and in looking at the numbers it's showing 1.467M and is unsure what phase that falls into; Mr. Shepley noted that is the entire cost of all three (3) phases. Supervisor Ivey noted that he understands that if we don't break this up into phases, we will have to go back through the bid process and if it's broken up into three (3) phases then we can start the process of approving the money for the contract for phase 1 – this is just approving the Baywood Phase I because the Board has to break it up into three (3) unless the Board wants to go back through the bidding process. Supervisor Anderson noted he's not opposed to going back through the bid process and with 1.467M only for part of the first corridor, based on the information he is looking at, that doesn't include the upstairs, gym or cafeteria so how can the 1.467M be for all three (3) phases and voting to break it up and go back to the drawing board and figure this out. Mr. Shepley noted that all three (3) phases doesn't include the entire building. Supervisor Hash stated a motion is before the Board and Supervisor Anderson noted he is still not clear asking if we are spending 1.4M if we vote yes now and the other members stated no. Supervisor Ivey seconded the motion made by Supervisor Belton. Motion carried 4-1 with Supervisor Anderson voting against.

IN RE: BOARD APPOINTMENTS

Supervisor Anderson noted that the Twin County Free Clinic Board would like to have a representative from Grayson on their board and he would be willing to serve on that board if it's the pleasure of the Board of Supervisors.

Ag Advisory Committee

- Henry R. Sturkie, II (Hank) – Wilson District
- Gary L. Mitchell – Wilson District

Supervisor Belton made the motion to approve; duly seconded by Supervisor Ivey. Motion carried 5-0.

Board of Equalization

- Danny Boyer – Providence District – is unable to serve – need a representative from the Elk Creek District since the Providence District already has a representative. Supervisor Anderson nominated Ty Cannaday of the Elk Creek District; duly seconded by Supervisor Ivey. Motion carried 5-0.
- Reece Sage – Wilson District – is unable to serve

CGGSWA

- Need to appoint a Board of Supervisor member to fill the remainder of Brenda Sutherland's term which will end on 12/31/23. Supervisor Anderson noted he would be willing to serve; duly seconded by Supervisor Ivey. Motion carried 5-0.

CLEOS – 1yr term – this appointment is for a Board of Supervisor member only

- Primary Representative - Supervisor Anderson nominated Supervisor Hash; duly seconded by Supervisor Belton.
- Alternate Representative – Supervisor Belton nominated Supervisor Fant; duly seconded by Supervisor Anderson. Motion carried for both primary and alternate 5-0.

CSA Family Management Policy Team – 4yr term

- Tom Revels (alternate for Mike Hash) – term will expire 12/31/22
This appointment was tabled to the next meeting; Supervisor Anderson will pursue a citizen for this appointment.

District III Governmental Cooperative – 1yr term

- Brenda Sutherland – term expired 12/31/21
 - Elizabeth Jones (alternate) – term expired 12/31/21 – will continue to serve
- Supervisor Anderson noted that if Ms Jones would be willing to be the primary representative, he would step in an alternate. Mr. Shepley noted that staff would reach out to Ms. Jones.

DSS – Department of Social Services 4yr term

- At the request of Kristin Shumate, DSS Director, appoint Brenda Sutherland as a local DSS Board member. Supervisor Ivey made the motion; duly seconded by Supervisor Fant. Motion carried 5-0.

Mt. Rogers Community Services Board – 3yr term

- Tom Revels – Mr. Revels resigned from this board – new appointee will fill the remainder of Mr. Revels term which will end on 12/31/22. Supervisor Anderson noted he would be willing to serve if there's no conflict – will table this appointment so staff can check on this.

Mt. Rogers Planning District – Full Commission - 4Commission – 4r term

- Tom Revels – term will expire 12/31/23 – Mr. Revels would like to continue to serve – staff has checked with MRPDC and Mr. Revels can continue to serve as a citizen of the County. Supervisor Belton made the motion to approve; duly seconded by Supervisor Ivey. Motion carried 5-0.

Mt. Rogers PDC Transportation Rural Technical Committee – 2yr term

- Brenda Sutherland – term expired 12/31/21
- Amber Shuler (Alternate) – term expired 12/31/21

Supervisor Anderson noted that he would be willing to serve as an alternate if Ms. Shuler would serve as primary – tabled this appointment until staff can check with Ms. Shuler.

Public Service Authority (PSA)

- Appoint R. Brantley Ivey and Tracy A. Anderson to serve on the PSA

Supervisor Belton made the motion; duly seconded by Supervisor Anderson. Motion carried 5-0.

None

IN RE: INFORMATION ITEMS

As presented

IN RE: REGISTERED SPEAKERS AND PUBLIC COMMENT

Wanda Pinion – 9476 Elk Creek Pkwy, Elk Creek - spoke regarding the trash and Baywood School - \$1.4M is a lot to put in one place regarding the school when the money is needed in other areas of the county. Regarding the trash, the AEP utility bill shows there is a tax on it – what is that for? Alleghany County has a little sticker that can be placed in the lower corner of the windshield that shows you are a resident of that county. Asking the Board to bring the Wednesday/Saturday back and to extend the hours.

John Dickenson – Deerwood Estates, Independence – across the road from the Public Works facility. Requesting the facility be reopened, it’s a convenience to the citizens of the county, permanent residents and seasonal residents. When I place my trash out for pickup the animals get into it. Almost all residents that use it also bring recyclables as well. Huge inconvenience not to be able to take trash on Wednesday/Saturday to the facility.

Joe Reeves – 1146 Independence Ave., Independence – lives below the Public Works facility and yes, we get some trash occasionally, but Public Works is good to keep it picked up. Dumpsters that the businesses pay for are being filled by citizens now since they can't take their trash on Wednesday/Saturday. Request it be opened back up and expand the hours; have more storage for trash. Supervisor Anderson noted that he has spoken with Mr. Reeves and Mr. Reeves has some ideas regarding entering/exiting the lot. Mr. Reeves noted that you could enter at the north and exit at the south (circle drive) and that way the flow is continuous.

Ann Rose – Elk Creek - uses the Wednesday/Saturday service – when she sets out her trash, it draws animals; also annoyed that she didn't know it wasn't open; it's been too dry to burn trash this year. Requested the Wednesday/Saturday service be reinstated.

David Charles and Darrell Ward left – didn't stay for public comment.

Kenneth Scott – 659 Comers Rock Road, Elk Creek – the ability to drop off metal, computer parts which has been around for over 15 years – it was a shock for it to be closed. Also suggested in one of the meetings to have public comments first. Baywood Tech Center is it a “white elephant” or a money-making thing – a lot of money for a basement to be reconstructed.

Todd H. Cannady submitted an email that Supervisor Anderson read: “I would like to officially express my concern and displeasure in shutting down the trash drop off on Wednesdays/Saturdays at the waste management facility. Since the inception of this service, I have seen a community effort and pride in keeping our community clean and less trash piles over the banks on our secondary roads. I hate to see a knee jerk reaction to problems that can be resolved by good management. This situation does not have to be all or nothing. Please consider taking measures at the Waste Management facility such as higher fences, better traffic flow, and more dumpsters to resolve the issues at hand. I would think that handling these issues at one location would be much less expensive and controlled than trying to manage 15,000 home locations. In essence we are bringing you our trash and paying you to pick it up. Sounds like a good problem to work through. Concerned citizen of Grayson County, Todd H Cannaday.

Supervisor Anderson noted that he would like to resolve this tonight and open the facility back up and extend the hours; duly seconded by Supervisor Ivey. Further discussion – Supervisor Fant noted that convenience and volume with the bigger concern being volume which translates into cost. We need to think about how we want to proceed with this service component of the overall trash collection program that the County has. Whether it's done at the current location or another location which can have unattended consequences which we've already heard where businesses and private owners have a dumpster are taking on the weight of that decision to close it. We have seen an increase in trash collection especially during the pandemic. Even with a volume issue we still have the safety issue with traffic. Supervisor Fant is not opposed

to reinstating the program, we just need to reassess the situation whether it's at the same location or a different location. Need to give staff time to come back to the Board with recommendations on how to accomplish it. Supervisor Anderson spoke and noted that the AEP tax is for trash collection and generates approximated \$400,000 per year that goes into the County's general fund - no need to kick the can down the road and would like motion to stand. Supervisor Ivey inquired if the motion is to open the facility back up immediately and look at ways to improve the service, then he's good with seconding the motion. Supervisor Anderson stated we open it back up with expanded hours and look at ways to improve the service and Supervisor Ivey stated we open it up immediately and start looking at ways to improve the service and Supervisor Anderson noted he could rest with that. Supervisor Hash asked if that's Supervisor Anderson's restructured motion and Supervisor Anderson stated yes, and Supervisor Ivey seconded the motion. Motion carried 5-0.

IN RE: BOARD OF SUPERVISORS' TIME

None

IN RE: CLOSED SESSION

None

IN RE: ADJOURN MEETING

Supervisor Ivey made the motion to adjourn; duly seconded by Supervisor Anderson. Motion carried 5-0.
