Proposed Use/Activity :

Floodplain District:

Floodplain Elevation:

A - All uses, activities, and development occurring within any floodplain district shall be undertaken only upon the issuance of a zoning permit for development in the floodplain. It is the responsibility of the property owner to determine whether their proposed development is in a designated floodplain, as determined by the Federal Emergency Management Agency, Federal Insurance Administration and affiliated flood insurance/flood plain designation maps. The Grayson County Flood Plain Ordinance shall dictate the administration of Flood Plain Management in Grayson County. The Ordinance is available for review in the Building/Zoning Department. Property owners should reference the ordinance prior to any plans for activities or development in the floodplain. Please sign below if you understand your responsibilities as it relates to floodplain development in Grayson County.

Signature:

Date:

B - Under no circumstances shall any use, activity, and/or development adversely affect the capacity of the channels, floodways of any watercourse, drainage ditch, or any other drainage facility or system. Encroachments, including fill, new construction, improvements or other development are prohibited unless certification (with supporting technical data) by a professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood. **Please sign below if you will not adversely affect the flood way or drainage within the proposed area of development Or Proceed to Section C**

Signature:

Date:

C- If proposed development/activities will increase the water surface elevation; permission must be obtained by the Federal Emergency Management Agency. **Please sign here** if permission has been obtained: **Signature:** **(include documentation)**

D. Prior to any proposed alteration or relocation of any channels or of any watercourse, stream, ect., within this jurisdiction a permit shall be obtained from the U.S. Corps of Engineers, The Virginia Department of Environmental Quality, and the Virginia Marine Resources Commission (a joint permit application may be available) Furthermore, notification of the proposal shall be given by the applicant to all affected adjacent jurisdictions, The Department of Conservation and Recreation Division of Dam Safety and Floodplain Management and the Federal Insurance Administration. If the proposed activity/development will alter or relocate channels or watercourses, please sign here to confirm that you have notified each of the agencies listed above:

E. Any structure or additions to structures located in a designated floodplain area must adhere to the requirements of the Grayson County Building Department for construction in a flood prone area. Prior to the issuance of a zoning or building permit for construction, applicants shall schedule a consultation with the Building Official and demonstrate that they will build in conformance with flood prone construction. Please sign here if you understand this requirement:

Building Official Requirements:

F. Any grading or other disturbance of soil in the floodplain may not occur until a review has determined that the project can meet the Floodplain Ordinance. Where grading or disturbance will exceed 10,000 square feet a separate Erosion & Sediment Control Permit must be obtained. Disturbed areas less than 10,000 square feet will require stabilization and reseeding. Sign here if you understand this requirement:
